

What is cool space?
...cool space is urban workspace.

Cool Space Locator is hosting the 2007 Cool Space Awards to recognize unique and innovative commercial spaces in the southwestern Pennsylvania region.

If you know of a cool space located in a walkable neighborhood, we want to hear about it.

Below is a list of award categories that reflect the fundamental values of Cool Space Locator. As a non-profit commercial real estate organization helping clients to relocate, we work to revitalize our region's historic towns, neighborhoods, and city centers where walkability is the norm.

Join us in celebrating revitalization and adaptive reuse by *nominating your favorite cool spaces!*
